### **Abstract**

It is well-known that Prophet Mohammad - Peace be upon him - was very keen to clarify every vital issue to the Islamic Ummah as well as to the whole humanity until the Day of Judgment.

The prophet warned the Ummah against misleading, infidelism, ignoring the other life, disunity, bestial passions, and

hypocrisy. The prophet invited the Ummah to adhere to the Moslem nation and the Islamic Faith.

This research includes an introduction, preface, three chapters and a conclusion. I have stated the definition of successive Hadith, its categories and its authenticity conditions : After I collected those hadiths about unbelief (Fitna), I approved the succession of 64 hadiths; of which 14 are original and the rest is of other methods . This category of hadith represents a call for doing good deeds so as to encounter unbelief.
